Summary

Motivated computer science student at the Higher Institute of Computer Science of Kef with strong skills in application and web development, mobile app design, and database management. Experienced in software testing, debugging, and documentation, with solid knowledge of algorithms, data structures, and machine learning. Passionate about building efficient, user-friendly solutions and continuously improving technical expertise.

Skills

- Full-Stack Web Development (Angular, Spring Boot, REST APIs)
- Mobile App Development (Flutter, Android)
- UI/UX Design Principles
- Database Management (PostgreSQL, MySQL)
- Version Control (Git, GitHub)
- Docker & Containerization
- Software Testing & Debugging
- Data Structures & Algorithms
- Machine Learning Fundamentals
- Data Analysis & Visualization
- Technical Documentation

Experience

Full-Stack Development Intern

02/2026 – 05/2026

LinkedU Inc - tunis, Tunis

- Developed web applications using Angular and Spring Boot.
- Managed application data using PostgreSQL.
- Used Git for version control and collaboration.
- Created and managed Docker containers for deployment.
- Tested and debugged applications to improve performance.

Application Development Intern

08/2025 - 09/2025

medianet - manar1, tunis

- Assisted in developing user-friendly applications for client projects.
- Developed mobile applications using Flutter framework for client projects.
- Analyzed datasets to identify trends and improve machine learning models.

Application Developer Intern

07/2025 - 08/2025

tunisie telecom - lac1, tunis

- Learned and utilized programming languages to enhance application functionality.
- Conducted testing on software applications to ensure quality and performance.

- Documented processes and findings for future reference and team use.

Office Assistant Intern

07/2024 - 08/2024

tunisie telecom - manouba, tunis

- Assisted with daily office operations and maintained a welcoming environment.
- Organized and maintained office files and documents for easy access.
- Supported data entry tasks using office software to maintain records accurately.

Supervisory Control and Data Acquisition Intern

07/2022 - 08/2022

The Tunisian Company of Electricity and Gas - tunis, tunis

- Monitored plant supervisory control and data acquisition system (SCADA), calibrated gauges, meters and controls and recorded readings for next shift.
- Operated advanced control systems including Distributed Control Systems, Programmable Logic Controllers, Supervisory Control And Data Acquisition systems.
- Performed quality assurance checks on data entry processes and identified areas of improvement.

Education and Training

Higher Institute of Computer Science of Kef

06/2026

Tunis, kef Bachelor's Degree in Computer Science

Oued Ellil High School

06/2022

Tunis High School Diploma

Certifications

- Bachelor's Degree in Computer Science, Software Engineering
- HP Foundation- Data Science and Analytics
- HP Foundation- Effective Leadership
- HP Foundation-Introduction to Cybersecurity Awareness
- HP Foundation-Strategic Planning
- Oracle Corporation-Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- The Hashgraph Association — Hashgraph Developer Course
- High School Diploma in Computer Science
- AWS Academy Graduate - Cloud Foundations - Training Badge
